Date

THE STATE OF WYOMING,
STATE ENGINEER'S OFFICE

} SS. Substitute Application. Original application filed
in Miscellaneous Notices, Permit No. 7345 Stk. Res.

THIS IS TO CERTIFY that I have examined the foregoing application and do hereby grant ~~reject~~ the same subject to the following limitations and conditions:

This permit grants only the right to use the water available in the stream after all prior rights are satisfied.

If the plans show that no outlet works are contemplated, the State Engineer may, upon proper complaint by other interested water appropriators or appropriator, or when in his judgment it is necessary, require the later installation of such necessary outlet works as will permit proper regulation.

[Lined area for additional conditions or notes]

Construction of the proposed reservoir shall begin within 1 year from date of approval.

The time for completing the construction of the reservoir shall terminate on December 31, 1973.

Witness my hand this 19th day of Oct., A. D. 1972.

Floyd A. Bishop
Floyd A. Bishop, State Engineer.

NOTICE

A Manual of Regulations and Instructions for filing applications will be furnished by the State Engineer's Office upon request. By carefully complying with the instructions contained in the Manual, much trouble and delay will be saved the applicant, the professional engineer or land surveyor, and the State Engineer's Office.

This application must be accompanied by maps in duplicate, prepared in accordance with the Manual, and by a filing fee of Two Dollars (\$2.00).

Applications returned for corrections must be resubmitted to the State Engineer within 90 days with the corrections properly made; otherwise the filing will be canceled.

This application, when approved, does not constitute a complete water right. It is your authority to begin construction work, which must be commenced within one year from the date of approval of this application.

Notice of commencement of work, completion of the work, described in the permit, must be filed in the State Engineers Office before the expiration of the time allowed in the permit.

If extensions of time beyond the time limits set forth in the permit are required, requests for same must be in writing, stating why the additional time is required, and must be received in the State Engineer's Office before the expiration of the time allowed in the permit.

To perfect your water right, notify your Water Division Superintendent that you are ready to submit final proof of construction. This notice should be sent to the Superintendent as soon as possible after the terms of the permit have been complied with. When you have submitted your proof before the Superintendent, it will be considered by the State Board of Control, and, if found to be satisfactory, the Board will issue to you a Certificate of Construction which will constitute a completed water right.

The granting of a permit does not constitute the granting of right-of-way. If any right-of-way is necessary in connection with the application it should be understood that this responsibility is the applicant's.
